Unidentified

Coroner Slack held an inquest yesterday afternoon over the remains of the unknown man found Sunday morning alongside the C. and O. track a short distance East of Lime-stone street. The verdict of the Jury was, in substance, that the unfortunate met his death by being struck by a C. and O. train. The body was buried in the Potter's field.

ON THE MARCH

The old Anglo Saxons called the month upon which we enter "Hlyd Monath," which, by interpretation, means storm month. Under the old Roman way of reckoning this was the first month of the year, and continued to be so in England until 1752. There are just two things about March which may be unfailingly predicted. The first is bad weather from the Signal Service and second is big bargains from us. We propose to let the winds do the blowing; we will do the selling.

It will be trained by the ablest military experts of Europe. The great giant of the far East is waking up.

THE Tobacco Trust has no use for discord in its own business, therefore it cements its work with harmony and distributes the discord among the farmers who grow tobacco.—Dover News.

The Tobacco Trust hasn't caused half the discord among Kentucky tobacco growers that many of the growers themselves have caused. All the Kentucky tobacco growers have to do to win is to stand firmly and intelligently together. The idea of cutting out the entire crop any year is an impossible attainment that does not appeal to any reasonable person. The farmers must let common sense and the spirit of justice guide them or they can never organize and succeed.

"Lame Leg Well"

"I wish to say that I have used Sloan's Liniment on a lame leg that has given me much trouble for six months. It was so bad that I couldn't walk sometimes for a week. I tried doctors' medicine and had a rubber bandage for my leg, and bought everything that I heard of, but they all did me no good, until at last I was persuaded to try Sloan's Liniment. The first application helped it, and in two weeks my leg was well."—A. L. HUNTER, of Hunter, Ala.

AIN'T it awful to think that we are to have CHUMP CLARK and the seventeen-year locusts both this year?

In the annual report of Fourth Assistant Postmaster-General DEGRAW, made public recently, are several recommendations designed to improve the Rural Free Delivery Service.

Advanced Hints in Rural Delivery.

He urged the establishment of a parcel delivery system along the line of Rural Routes. Many farmers, he says, are demanding it, and its establishment would mean large additional revenue to the Government.

The total mileage of Rural Routes in operation on June 30th, last, was 993,068, the mileage a route averaging 24.19. The average number of miles traveled daily by Rural Carriers was 984,993. The average cost of the service a mile of route was \$35.96 a year.

Mr. DEGRAW suggests that legislation that will extend to Rural Carriers and other postal employees the existing laws which authorize the Postmaster-General to pay \$2,000 to the legal representatives of a railway clerk who shall be killed while on duty or who, being injured while on duty, shall die within one year thereafter as the result of such injury.

WHY STUBB LEFT HOME.

All afternoon, says The Chicago News, Mr. Stubb had been moving pictures from one room to another, and his only reward was dust and perspiration.

"Hurry up, John," chided Mrs. Stubb, impatiently. "You will never finish at that rate."

Mr. Stubb removed the cobwebs from his florid brow.

"Woman, do you think I'm a machine?"

"Gracious, how funny!"

"Madam, may I ask what is funny?"

"Why, my dear, if you were a machine, you would be a moving picture machine."

And then and there Mr. Stubb washed his hands and started for the Club.

TO PUSH MAYSVILLE!

Big Impetus to Be Given to Local Industries By Combine of Gas, Electric and Street Railway Concerns

Organization of the Maysville Public Service Company the Most Advanced Step Ever Taken in Our City

Those citizens who are conversant with past conditions can only understand what a burden has been borne by the men controlling our public utilities corporations in their struggles to overcome obstacles that, in many other cities, have wrecked and ruined similar enterprises, and now that we see the fruits of honest and conservative management materialize into a combination of corporate interests, backed and controlled by our leading and wealthiest lawyers, bankers and capitalists, the city of Maysville, and, indeed, every taxpayer and resident, should rejoice over the culmination of plans which mean so much and so surely the immense development of our municipality.

As noted briefly in Monday's LEDGER the merger of the Maysville Gas Company and the Citizens' Gas Light Company was perfected by new articles of incorporation and the organization today of the new "Maysville Public Service Company" is the result.

It means that—
The Maysville Gas Company,
The Citizens' Gas Light Company,
The Natural Gas proposition,
The Maysville Street Railway,

have been consolidated with \$150,000 capital stock, and a limit of indebtedness for betterments and improvements, totaling the sum of \$300,000.

It now becomes The Maysville Public Service Company, as above given, and,

"The nature of the business, and the objects and purposes proposed to be transacted, promoted or carried on, are:

"To acquire by purchase, subscription or otherwise, and to hold or dispose of the stock of the Maysville Gas Company and the Maysville Street Railway and Transfer Company, etc.

"To borrow money to pay off the present

indebtedness of both companies and to raise money to repair and improve the works and properties of said companies and to issue negotiable coupon bonds and other obligations for any of said purposes, and for the purpose of aiding either of said corporations in any way; and shall also have power to secure such bonds or other obligations to pledge or mortgage of the shares of stock of said corporations which it may hold, and to join the corporations in a mortgage upon their property and franchises to secure bonds or other obligations."

The amount of capital is \$150,000 and the number of shares 1,500 of \$100 each, divided into preferred and common stock. The issue and exchange of stock shall be only on the basis of dollar for dollar, there being no "watered stock."

The corporation to commence business March 1st, 1911, and to continue 99 years.

The affairs of the corporation are to be conducted by a Board of Directors of five members, to be elected today; the officers to be elected today by the Directors to be a President and a Secretary and Treasurer.

The indebtedness at no time to exceed \$300,000; and the private property of the stockholders not to be subject to the payment of the corporate debts.

The first issue of bonds to be \$250,000, for which 500 bonds of \$500 each shall be issued, secured by mortgage on the joint properties, etc.; the terms of said bonds and the rate of interest shall be fixed by the Boards of Directors of said three Companies.

Thus above are the intentions and plans of the new company.

As will be seen by reading the above list of stockholders the new concern is controlled by the same solid and conservative Maysville business men as the old Companies and that a million or more in money and property owned by them is backing this modern corporation, which will not only develop the joint franchises of the concern to the highest state of value and efficiency, but will place Maysville in the front rank for public service utilities by giving her citizens the best there is to be had in both natural and artificial gas, electricity for light, heat and power and an electric street railway system equipped with the most modern cars and service at the minimum cost, and best of all 30-cent natural gas.

The old Maysville Gas Company was chartered March 1st, 1854; the Citizens Gas Light Company April 19th, 1886; the Maysville Street Railway (horse power) in 1883 and the electric power plant went into operation in 1890.

All these years the old Companies have been working along, and by degrees modernizing every branch of the service, until now 57 years after the initial charter was granted, we see the fruits and results of years of wisdom and patience rewarded in the culmination of hoped for plans and a realization of three generations of human endeavor and progress. The fruits of the consolidation will likely be the latest patterns of convertible streetcars, increased power for all electric purposes, new brick car barns, elimination of sharp curve and trestle in the East End, same to be replaced by solid earth fill, abundant natural gas, with artificial plant as a reserve force, all done with home capital, by men who were bred and born here and who, despite adverse conditions, are willing to invest over a quarter of a million dollars in developing their holdings and thereby assisting in making Maysville what it should be, one of the most modern cities in the United States.

The wedding of Miss Effie Shultz, formerly one of the popular teachers of the Maysville Public Schools, to Dr. Gordon Williams of Traverse City, Mich., will take place at the home of the bride-elect near Flemingsburg June 25th at high noon.

Ash Wednesday Service

PUBLIC LEADER

Probably the largest pigeon farm in the world, 100,000 fully grown birds, to say nothing of thousands of squabs, belongs to Mr. T. H. Johnson on the edge of Los Angeles, Cal. Begun ten years ago on a small scale, the place today has six large buildings on eight acres of sandy land—the main building being 60x30 and 20 feet high. The buildings inside and out are banked up solidly with boxes in tiers, with narrow aisles leading to the nests. All the birds are pure white, with scarcely an exception.

Might Be Dead Today

Garden City, Kas.—In a letter from Mrs. James Hamer of this city, she says: "I firmly believe that I would not be alive today, if it were not for Cardui. I had been a sufferer from womanly troubles all my life, until I found that great remedy. I feel that I can't praise it too highly." Are you a woman, suffering from some of the troubles to which a woman is peculiarly liable? If so, why not try Cardui, the woman's tonic? You can rely on Cardui. It is purely vegetable, perfectly harmless and acts gently but surely, without bad after-effects. 'Twill help you. Ask your druggist.

20% UNDERFEED INVESTMENT

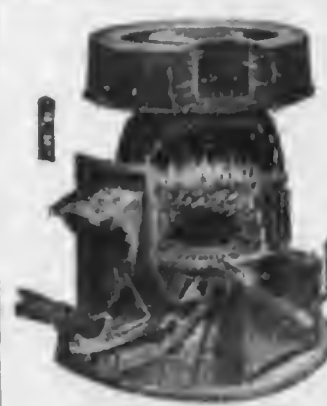

Most heating systems are an actual drag on the domestic treasury. If you want to enjoy actual every-winter dividends, tear out your old glutinous coal-water, with its uneven heat and hard-to-satisfy appetite for fuel. Put in a

PECK-WILLIAMSON UNDERFEED FURNACE OR BOILER

Choose the system you like best—warm air, steam or hot water. Cheapest stack in the Underfeed yields as much clean, even heat as most expensive grades; which ordinary heating plants require. All the fire is on top and has to eat down into the fresh coal against the draft. Combustion is slow and perfect, and smoke, dust and gases are entirely eliminated. This enables Underfeed furnace and boiler pairs to

SAVE TO 1/2 OF COAL BILLS.

This saving represents a 20% dividend on the investment for this modern system of heating. Figure it out. It won't take long to get your money back. The Underfeed adds to the selling or renting value of any building.

Write today for free booklet on Underfeed Warm Air, Steam and Hot Water Heating Systems. Our representative will be glad to call any time and make you a detailed proposition.
